Competent Web Developer with an Affinity for Problem-Solving

- Over 3 years of full stack web development, including term projects at BCIT, a 2-month internship at an eCommerce business, and personal projects.
- Demonstrated time management and communication skills through successful completion of 8 courses per term while completing projects under strict deadlines.
- Applied agile methodologies through continuous planning, executing, and reviewing of projects with team members and clients.
- Technical proficiencies include:

  - **Foundation:** HTML, CSS, JavaScript, TypeScript, REST APIs, MySQL, PHP, WordPress
  - **Libraries:** React, React-Native, Next.js, Expo, Redux Toolkit, MongoDB, Firebase, Node.js, Express, Sass, Styled-Components
  - **Design Tools:** Adobe Creative Cloud, Figma

Education

Digital Design and Development Diploma | BCIT   **Sep 2020 – May 2022**

Key concepts covered:

- Web development foundations
- Front end development
- Back end development

- UI/UX design and development
- Adobe Photoshop & Illustrator
- Project management

Relevant Experience

Front End Web Developer Intern | Goopter eCommerce Solutions   **Apr – May 2022**

React, TypeScript, Redux, CSS

- Collaborated with UI/UX designers to develop several client-focused features, including an independent remaking of the restaurant order confirmation screen.
- Analyzed and solved 1-2 major issues or 3-5 minor issues a day through individual research and testing, including creating a custom component to resize text based on language and length.
- Assisted in code reviews for other developers, leveraging newfound knowledge to provide constructive feedback, including improvements to code consistency and uncovering bugs.
- Attained industry workplace skills, including proper procedure for pull requests via BitBucket, task reporting through a builtin ticketing system, and proper communication to clients and seniors.

Full Stack Developer | Lorem Store (Personal Project)   **Present**
React, TypeScript, Redux Toolkit, MySQL, Node.js, Express, REST APIs

- Developed a custom API with Node.js to handle GET and POST requests to send and receive data for products and users.
- Created a responsive UI to load products asynchronously with pagination.
- Utilized React Hook Form to allow users to create a product with full form validation.

Full Stack Developer | Step Ahead (Personal Project)   **June 2023**
React, TypeScript, Sass, FireBase

- Designed a complete and responsive UI for a simple to-do list with CRUD operations, using CSS media queries for responsiveness and Framer Motion for fluid animations.
- Utilized FireBase to create a secure email and Google user authentication system, as well as secure database communication through Firebase Realtime Database.
- Established consistency through a proper state management system with React Context and typing via TypeScript.

Full Stack Developer | Scout (BCIT Term Project)   **March 2022**
React, JavaScript, MongoDB, Styled-Components

- Developed a user interface based on Figma prototypes, including a grid system for listing shows.
- Created a custom API to send and receive data from a MongoDB database.
- Handled state management with React Context to store data from the API.

Transferable Experience

Commercial Crab Fisherman   **Oct 2018 – Dec 2019 / Oct 2022 – Present**

- Demonstrated strong work ethic and tenacity to ensure tasks are done through any conditions, including rough weather and mental hardships.
- Created a work routine to ensure consistency in completing tasks quickly and efficiently, including cutting bait and prepping and throwing traps
- Developed the ability to handle unexpected and stress-heavy events with a calm demeanor.

Produce Clerk, General Clerk, Cashier | Safeway   **Oct 2015 – Jul 2016 / Jun 2018 – Oct 2018**

- Showed adaptability through being able to work multiple roles and handling different tasks as required of management.
- Managed prepared produce inventory, practicing proactiveness in handling tasks and problem solving.
- Acquired speed and efficiency of regular tasks and problem solving through repeated exposure, including checking items, cutting and preparing fruits and salads, and stocking items.
